Executed Projects of New Construction Technologies for 2011

#	Name of the object	Comments	Project description
1	Rustavi, transfer of the existing on the Kura river canalization siphons within the scope of the Kura river and rehabilitation works	Installation of canalization f/c siphon 310 m ³	Sewerage Network Rehabilitation
2	Rustavi, rehabilitation works on water supply network at the restaurant "Arishi"	Replacement of water steel pipe D=700mm-358	Water Network Rehabilitation
3	Tbilisi, restoration of asphalt coating on water-sewerage networks after rehabilitation works	Laying of asphalt coating on water-sewerage network after rehabilitation works	Asphalt Recovery
4	Tbilisi, laying asphalt coating in Tbilisi, Nadzaladevi district, st. Tkeparki #7	Laying asphalt coating	Asphalt Recovery
5	Rustavi, rehabilitation works on water mains at the restaurant "Salkhino"	Replacement of water steel pipe D=700mm-145	Water Network Rehabilitation
7	Rustavi, rehabilitation works on water mains in the area of the transition line to the canal Mari	Replacement of water steel pipe D=700mm-145	Water Network Rehabilitation
8	Tbilisi, Aerodrome settlement, st. #12, house #8, asphalt coating	Laying of asphalt coating	Asphalt Recovery
9	Tbilisi, rehabilitation of water supply network in the street Khvamli	Replacement of water supply network with plastic pipes D=160mm-315m and branching installation	Water Network Rehabilitation
10	Tbilisi, rehabilitation of water supply network in the street Dgebuadze	Replacement of water supply network with plastic pipes D=160mm-180m, D=110mm-39m, D=50mm-30m, D=32mm-48m	Water Network Rehabilitation
11	Tbilisi, rehabilitation of water supply network in the street Dgebuadze	Replacement of canalization plastic pipes D=600mm-191m, D=300mm-40m, D=250mm-12m	Sewerage Network Rehabilitation
12	Tbilisi, rehabilitation of water supply network in the street Abashidze	Replacement of water supply network with plastic pipes D=160mm-353m, D=50mm-32m, D=32mm-12m,	Water Network Rehabilitation
13	Tbilisi, rehabilitation of water supply network in the street from street Khavamli to street Kargateli	Replacement of water supply network with plastic pipes D=250mm-709m, D=110mm-22m, with ramifications	Water Network Rehabilitation

14	Tbilisi, Agmashenebeli Avenue, rehabilitation of sewerage network from the street Baku to the street Paster	Replacement of canalization plastic pipes D=600mm-120m, D=400mm-245m, D=300mm-62m	Sewerage Network Rehabilitation
15	Tbilisi, Agmashenebeli Avenue, rehabilitation of water supply network in the street Paster	Replacement of water plastic pipe D=160mm-194m, with ramifications	Water Network Rehabilitation
16	Tbilisi, Agmashenebeli Avenue, rehabilitation of sewerage network in the street Paster	Replacement of sewerage network with plastic pipes D=600mm-194m, D=200mm-94m, D=250mm-13	Sewerage Network Rehabilitation
17	Tbilisi, rehabilitation of water supply network in the street St. Petersburg	Replacement of water plastic pipe D=160mm-200m and ramifications	Water Network Rehabilitation
18	Tbilisi, rehabilitation of sewerage network in Abashidze street	Replacement of sewerage network with plastic pipes D=250mm-188m, D=225mm-24m, D=160mm-26m	Sewerage Network Rehabilitation
19	Tbilisi, rehabilitation of sewerage network in the street St. Petersburg (additional works)	Replacement of sewerage network with plastic pipes D=300mm-180m, D=200mm-94m.	Sewerage Network Rehabilitation
20	Tbilisi, Agmashenebeli Avenue, rehabilitation of water supply network from Mardjanishvili street to street Abashidze	Replacement of water supply system with plastic pipes D=250mm-237m, D=160mm-135, D=110mm-8m with ramifications	Water Network Rehabilitation
21	Tbilisi, Agmashenebeli Avenue, rehabilitation of sewerage network from Mardjanishvili Avenue to street Chorokhi	Replacement of sewerage network with plastic pipes D=400mm-360m, D=300mm-9m, D=200mm-179m	Sewerage Network Rehabilitation
22	Tbilisi, Agmashenebeli Avenue, rehabilitation of water supply network from Paster street to Agmashenebeli Avenue, addition	Replacement of water supply system and ramifications with plastic pipes D=400mm-105m, D=250mm-1300m, D=110mm-16m with ramifications	Water Network Rehabilitation
23	The road to the village Digomi (to the center of Didgori street), rehabilitation of water supply network	Replacement of sewerage network with plastic pipes D=160mm-2351m, D=63mm-169m, D=32mm-800m	Sewerage Network Rehabilitation
24	Vake-Saburtalo district, Didgori street, expansion-reconstruction of the existing sewer collector	Replacement of sewerage network with plastic pipes D=300mm-290m	Sewerage Network Rehabilitation
25	Chikovani st., rehabilitation of ware supply network	Replacement of water supply system with plastic pipes D=400mm-276m, D=110mm-52m, D=50mm-306m, D=25mm-383m	Water Network Rehabilitation
26	Kurdiani street, reconstruction-rehabilitation of water supply network	Replacement of water supply system with plastic pipes D=250mm-176m, D=160mm-300m, D=110mm-2m, D=63mm-46m, D=32mm-99m, D=25mm-8m	Water Network Rehabilitation

27	Arsen Odzelashvili street, reconstruction-rehabilitation of water supply network	Replacement of water pipe D=323mm-259.2, steel pipe and ramifications D=63mm-12m, D=50mm-12m, D=32mm-97m, plastic pipes	Water Network Rehabilitation
28	Tsintsadze 1 st Lane, reconstruction-rehabilitation of water supply network	Replacement of water supply network with plastic pipes D=110mm-448m, D=50mm-92m, D=32mm-9m, D=25mm-317m	Water Network Rehabilitation
29	Uchaneishvili st., reconstruction-rehabilitation of water supply network	Replacement of water supply network with plastic pipes D=225mm-324m, D=110mm-324m, D=110mm-281m, D=75mm-70m, D=32mm-162m	Water Network Rehabilitation
30	Zigzagi st., reconstruction-rehabilitation of water supply network	Replacement of water supply network with plastic pipes D=110mm-780m, D=50mm-10m, D=25mm-340m,	Water Network Rehabilitation
31	Catholicos Anton street, reconstruction-rehabilitation of water supply network	Replacement of water plastic pipe D=110mm-64m, D=50mm-4m, D=25mm-73m	Water Network Rehabilitation
32	Tsigareli st., reconstruction-rehabilitation of water supply network	Replacement of water pipes D=273mm-36m, D=100mm-16m, steel pipe D=32mm-245m, plastic pipe	Water Network Rehabilitation
33	1 st Lane Tsintsadze, reconstruction-rehabilitation of sewerage network	Replacement of sewerage network with plastic pipes D=200mm-178m, D=150mm-45m, D=110mm-114m	Sewerage Network Rehabilitation
34	Gagarin st., , reconstruction-rehabilitation of sewerage network	Replacement of sewerage network with plastic pipes D=400mm-116m,	Sewerage Network Rehabilitation
35	Zigzagi st., reconstruction-rehabilitation of sewerage network	Replacement of sewerage network with plastic pipes D=300mm-208m,	Sewerage Network Rehabilitation
36	Catholicos Anton st., reconstruction-rehabilitation of sewerage network	Replacement of sewerage network with plastic pipes D=300mm-18m, D=250mm-63m	Sewerage Network Rehabilitation
37	Vakhtang IV street, reconstruction-rehabilitation of sewerage network	Replacement of sewerage network with plastic pipes D=200mm-23m	Sewerage Network Rehabilitation
38	Ippolito-Ivanovo st., reconstruction-rehabilitation of sewerage network - the yard of the house	Replacement of sewerage network with plastic pipes D=150mm-38m	Sewerage Network Rehabilitation
39	Ippolito-Ivanovo st., reconstruction-rehabilitation of sewerage network – vocational school #36	Replacement of sewerage network with plastic pipes D=300mm-141m, D=150mm-3m	Sewerage Network Rehabilitation
40	Ippolito-Ivanovo st., reconstruction-rehabilitation of sewerage network – between Saradjishvili #67 and Saradjishvili #25	Replacement of sewerage network with plastic pipes D=300mm-136m	Sewerage Network Rehabilitation

41	Tbilisi, Tkekultura st. #7, laying asphalt coating	Laying asphalt coating	Asphalt Recovery
42	Tskneti settlement, nameless street, connecting Gorgasali street and Guramishvili street, reconstruction-rehabilitation of sewerage network	Replacement of sewerage network with plastic pipes D=300mm-536m, D=200mm-10m	Sewerage Network Rehabilitation
43	Tsintsadze street, rehabilitation of water supply network	Replacement of water supply network with plastic pipes for ramifications D=32mm-10m, D=25mm-320m	Water Network Rehabilitation
44	Ukalto st., reconstruction-rehabilitation of sewerage network	Replacement of sewerage network with plastic pipes D=400mm-36.7m	Sewerage Network Rehabilitation
45	Khabaradze st., rehabilitation of water supply network	Replacement of water supply network with plastic pipes for ramifications D=50mm-30m, D=32mm-291m	Water Network Rehabilitation
46	Khabaradze st., rehabilitation of drainage network	Replacement of water supply network with plastic pipes D=300mm-74m, D=200mm-7m, D=150mm-11m	Water Network Rehabilitation
47	Grandma's street, rehabilitation of water supply network	Replacement of water supply network with plastic pipes for ramifications D=32mm-70m	Water Network Rehabilitation
48	Voronin st., rehabilitation of water supply network	Replacement of water supply network with plastic pipes for ramifications D=160mm-150m, D=32mm-117m	Water Network Rehabilitation
49	Rustavi, Mshvidoba st., rehabilitation of water supply network	Replacement of water steel pipe D=720/9mm-368m	Water Network Rehabilitation
			Water Network Rehabilitation
50	Rustavi, Medicine st., rehabilitation of the existing water supply network	Replacement of water steel pipe D=720/9mm-100m	Water Network Rehabilitation
51	Rustavi, Tbilisi st., rehabilitation of the existing water supply network	Replacement of water steel pipe D=720/9mm-48m	Water Network Rehabilitation
52	Rustavi, Tsurtaveli st., rehabilitation of the existing water supply network	Replacement of water steel pipe D=720/9mm-144m	Water Network Rehabilitation
53	Vake-Saburtalo district, 1 st Lane Kobuleti, rehabilitation of sewerage network	Replacement of sewerage network with plastic pipes D=250mm-96m, D=100mm-30m	Sewerage Network Rehabilitation
54	Rustavi, XVII m/d, bldgs. VII and XX, installation of water meters	148 meters are installed	Counter Installation
55	Mtskheta, Chavchavadze st., rehabilitation of water mains	Replacement of water plastic pipe D=110mm-280m, D=25mm-150m	Water Network Rehabilitation

56	Mtskheta, Gvindjiliya st., rehabilitation of water mains	Replacement of water plastic pipe D=110mm-150.8m, D=50mm-20.5m	Water Network Rehabilitation
57	Mtskheta, Guramishvili st., rehabilitation of water mains	Replacement of water plastic pipe D=110mm-360m, D=25mm-308m	Water Network Rehabilitation
58	Tbilisi, Gldani-Nadzaladevi district, Grmagele Lane, restoration of water supply network	Replacement of water supply network with plastic pipes D=200mm-780m, D=110mm-432m	Water Network Rehabilitation
59	Ippolito-Ivanovo st., reconstruction-rehabilitation of sewerage network (from #121 to Saradjishvili Highway)	Replacement of sewerage network with plastic pipes D=200mm-296m, D=150mm-35m	Sewerage Network Rehabilitation
